General:

Something in February 1952, S/A Marshall was introduced to the Subject by S/A John V. Edwards in the Salzburg CIC office. At that time they were carrying out an investigation of the activities of a suspected Soviet agent. Marshall regarded as significant that both Subject and his companion Father Remond (priest from Munich, British consulting) were reluctant to offer any information re the matter in which the two S/A's were interested. The two priests answered only direct questions and nothing more.

Two days later Edwards and Marshall were notified by the Commanding

Officer of GRD Det A that the Subject and Howell had been interrogated by their alleged Control agent (mentioning the other American intelligence agency) to cooperate more fully with GRD Det A. Subsequently Howell was visited by personnel of his agency to brief on the subject of his information.

Potential and Evaluation

Subject is an invaluable source of information re Russian DP affairs, particularly as they pertain to Communist and anti-Communist personalities and organizations. He has the confidence of the active anti-Communist Russian DP element and has given Agent Howell much information re Communist activities and pro-Communist activities in Salzburg. Subject believed he is an AIG target after receiving threatening call addressed to the Royal Imperial in Vienna. He is no way hesitant about denouncing pro-Communist personalities claiming he is working for the same cause as the KGB. In fact, the defense of the Soviet Union regime and the actions of the KGB are validated.

S/A Howell is handling this agency.

There is much influence of communism between Subject and KGB and the GRD.
